Astroglide, the aphrodisiac!!

When used during intimate activity, Astroglide definitely heightens sexual pleasure for both partners. In fact, in her well-known book *To Be Alive*, Dr. Carol Runowicz claims: "Men go crazy, they call it AstroHeaven." *Glamour Magazine's* sexual ethics columnist Lynn Showden notes: "A certain canny friend insisted I try a product called Astroglide. Now I'm a convert. I have to say sex before AIDS was never like this. With these high-tech lubricants, safe sex can be something of a revelation."
