

ASTROGLIDE NATURALLY DERIVED

Carbomer Free Personal Lubricant for Pap Smears

Hologic, Inc, the makers of ThinPrep evaluated many popular personal lubricants and found that many contain carbomers. The use of lubricants with carbomers or carbopol polymer may interfere with cervical screening tests and render the sample ineffective. It is important to use a carbomer free lubricant.

ASTROGLIDE Naturally Derived is carbomer free and available in 74ml bottles or 4ml sachets.

ASTROGLIDE[®]

Appropriate Use of Lubricant for Cervical Screening Test Collection

Apply a five cent piece-sized amount of lubricant gel.

Apply only gel exterior sides of the speculum, avoiding the tip.
